

Tokushima Alert: Caution Against Infection (Early Period) [Level 2]

Notification of alert level being raised and infection prevention measures.

With the emergence of the BA.5 Omicron subvariant, the number of infections has been increasing.

Please follow infection prevention measures during summer break (especially Obon), when many people will be moving around.

Don't be overly fearful, but follow basic infection prevention measures and engage in socioeconomic activities.

Continue to Practice Fundamental Infection Prevention Measures

Regarding Masks

Be careful of heat stroke and wear your mask at the appropriate time.

*When commuting to work/school using public transportation, or in crowded places, please wear a mask.

Ventilation in Summer

Even when using an air conditioner indoors, periodically open the windows to ventilate the room.

If You Have Symptoms

If you or anyone in your family is feeling even the slightest bit unwell, please consult with your family doctor.

For those who don't have a family doctor they can consult with:

Examination & Consultation Center: 0570-200-218

Consider Getting the Vaccine Boosters
